

KALAELOA TRAFFIC CONSTRUCTION UPDATE

November 9, 2021

**FDR Ave. nightly construction and contraflow
beginning the week of Nov. 15th.**

Mahalo for your kōkua.

Franklin D. Roosevelt Avenue

- Construction crews to perform work between 9 p.m. and 5 a.m. nightly to minimize daytime traffic impacts. During construction, a one-lane contraflow traffic pattern will be in effect.
- Traffic signs and safety barriers will be installed during construction.

In June 2021, Hunt began infrastructure construction and significant road improvements in Kalaeloa to prepare the area for the new Veterans Affairs (ALOHA) Clinic and new homes being built by Gentry Homes. This is part of Hunt's commitment to revitalize Kalaeloa and bring jobs and homes to the area for local residents.

We appreciate your patience and understanding as we work to create the foundation for the future of Kalaeloa. Our top priorities during this phase are to ensure safety and to create easily accessible alternate travel routes in the area. Hunt's construction team worked extensively with the contractor to minimize impacts on traffic. Because the existing Boxer Road and Copahee Ave. are being entirely reconstructed, they will be closed completely during construction, which will impact other roads.

FDR Ave: Changes from 2-lanes to 4-lanes along the entire length of the project with two lanes in each direction. This new segment will have sidewalks on both sides of the road, which will increase walkability in the area.

Boxer Rd: Because the two projects are being built where the existing road is, Boxer road is being closed and relocated makai. The road will temporarily be a 2-lane road with a planter strip and sidewalk on the mauka side.

Copahee Ave: Adjacent to Barbers Point Elementary, Copahee will remain a 2-lane road with the planned addition of sidewalks/planter strips on both sides and space for parking. This makes it a much safer walking environment around the school.

Kamokila Blvd: Kamokila's 4-lane roadway extends into the Kalaeloa project. The Kamokila extension will also have two travel lanes going in both directions with bike lanes continuing on both sides of the roadway.

Our goal is to complete these necessary improvements as efficiently as possible while providing safe access in and around Kalaeloa with minimal interruption. Because this is a long-term project, we want to make sure you are able to get the updates you need in a timely manner. You will find them at our website, and if you have any questions, feel free to reach out to the email address below:
