Improvements to Franklin D. Roosevelt (FDR) Avenue are ongoing. Two new mauka (mountainside) lanes of FDR Ave. will remain closed to ensure the safety of contractors while they continue construction. Two makai (oceanside) lanes are open for public access. Additionally, Hunt contractors have made significant progress on the Kamokila Boulevard extension and Boxer Road relocation. FDR Ave., the Kamokila Blvd. extension, and the new Boxer Road are scheduled to open to the public early next year.

Copahee Avenue will be closed to the public through at least mid-2023. Access to Barbers Point Elementary School remains unchanged via Tulagi Avenue. Hunt representatives continue to work with school administrators to minimize disruption to the campus.

**FDR Ave.:** Once complete, FDR Ave. will have 4-lanes along the entire length of the project with two lanes going in each direction. This new segment will have sidewalks on both sides of the road, which will increase walkability in the area.

**Kamokila Blvd.:** Kamokila Blvd. has been extended into Kalaeloa. The Kamokila extension will have travel lanes in both directions with bike lanes continuing on both sides of the roadway once improvements are complete.

**Boxer Road:** Boxer Road has been relocated. Boxer Road will include travel lanes in both directions and a sidewalk on the mauka side of the roadway once phase one of improvements are complete.

# KALAELOA CONSTRUCTION UPDATES

Progress continues to be made on the Daniel Kahikina Akaka Department of Veterans Affairs Community-Based Outpatient Clinic.

Exterior walls and the roof of the state-of-the-art VA medical facility are nearly complete, and interior work has begun.

Once Hunt Companies completes construction, the \$120 million VA facility will provide specialized health care for 87,000 Hawai'i veterans.

The 89,000-square-foot facility will offer primary care, mental health, audiology, physical and occupational therapy, dental and prosthetic services. The clinic is scheduled to open in 2024.

The Daniel Kahikina Akaka Department of Veterans Affairs Community-Based Outpatient Clinic is part of Hunt Companies' commitment to revitalize Kalaeloa. Hunt began infrastructure construction and significant road improvements in June 2021 as the company strives to bring jobs and homes to the area for local residents.

We appreciate your patience and understanding as we work to create the foundation for the future of Kalaeloa. Our top priorities are to complete these necessary improvements as efficiently as possible while providing safe access in and around Kalaeloa with minimal interruption. Because this is a long-term project, we want to make sure you are able to get the updates you need in a timely manner. You will find them at our website, and if you have any questions, feel free to reach out to the email address below:
