Work is nearing completion on new roads surrounding the future Daniel Kahikina Akaka Department of Veterans Affairs Community-Based Outpatient Clinic. The new Kamokila Boulevard Extension, new Boxer Road, and new lanes of Franklin D. Roosevelt Avenue are scheduled to open in June 2023.

Copahoe Avenue will remain closed through early August 2023 while Hunt awaits guidance from the U.S. Department of Education. Barbers Point Elementary School will continue to be accessible through Tulagi Avenue. Hunt representatives continue to work with school administrators to minimize disruption to the campus.

FDR Ave.: Once complete, FDR Ave. will have 4-lanes along the entire length of the project with two lanes going in each direction. This new segment will have sidewalks on both sides of the road, which will increase walkability in the area.

Kamokila Blvd.: Kamokila Blvd. has been extended into Kalaeloa. The Kamokila extension will have travel lanes in both directions with bike lanes continuing on both sides of the roadway once improvements are complete.

Boxer Road: Boxer Road has been relocated and will include travel lanes in both directions. Once phase one of improvements is complete, a sidewalk will be added on the mauka side of the roadway.

KALAELOA CONSTRUCTION UPDATES

Progress continues to be made on the Daniel Kahikina Akaka Department of Veterans Affairs Community-Based Outpatient Clinic.

Hunt announced a partnership with Xeal to install 19 EV chargers outside the clinic. The chargers will serve veterans, their families, health care professionals, and the West O'ahu community.

Inside the building, interior walls of the state-of-the-art VA medical facility are being installed. Once Hunt Companies completes construction, the \$120 million clinic will provide specialized health care for 87,000 Hawai'i veterans.

The nearly 90,000-square-foot facility will offer primary care, mental health, audiology, physical and occupational therapy, dental and prosthetic services. The clinic is scheduled to open in 2024.

The Daniel Kahikina Akaka Department of Veterans Affairs Community-Based Outpatient Clinic is part of Hunt Companies' commitment to revitalize Kalaeloa. Hunt began infrastructure construction and significant road improvements in June 2021 as the company strives to bring jobs and homes to the area for local residents.

We appreciate your patience and understanding as we work to create the foundation for the future of Kalaeloa. Our top priorities are to complete these necessary improvements as efficiently as possible while providing safe access in and around Kalaeloa with minimal interruption. Because this is a long-term project, we want to make sure you are able to get the updates you need in a timely manner. You will find them at our website, and if you have any questions, feel free to reach out to the email address below:
